MEMORANDUM FOR: Executive Officer, OL

FROM:

[redacted]
Chief, Logistics Services Division

STAT

SUBJECT: Funds for an Acceleration Lane on the
George Washington Memorial Parkway

1. Included in the plans for a new building on the Headquarters compound is money for the construction of an acceleration lane on the George Washington Memorial Parkway. This lane is sorely needed to eliminate a serious safety hazard which has existed for many years and will get worse when additional people and vehicles are located on the Headquarters site.

2. We have recently been notified by the National Park Service that plans are out for bid on redecking the overpass from the George Washington Memorial Parkway to the Headquarters gate. In conversation with Park Service personnel they agreed to include our acceleration lane in the same contract if we could assure them that funds up to \$150,000 would be available in FY83.

3. [redacted] Chief, Building Planning Staff has discussed this matter with the Director of Logistics. In addition he talked to [redacted] and confirmed that money for the project is in the funds to be made available when and if the Agency's FY1983 budget is approved.

STAT

STAT

4. In view of this, it is requested that you approve this office and Building Planning Staff to authorize the addition of the acceleration lane to the Parkway overpass project. This will permit the Park Service to go out for bids and the project can start in the Spring of 1983.
